What is a Collectors' Guide?

The Forces of the Imperial Inquisition Collectors' Guide is the definitive tome for anyone interested in the Imperial Guard miniatures range. It's ideal for anyone who collects a Imperial Inquisition force, containing the full range of Inquisition models and their component parts.

We've laid the range out following all the Inquisitor codices, grouping models into each of their own sections. We hope this will make it easier for you to navigate through and find the models or components you seek.

Models are identified by description and code. Whilst you can order all such models through Direct and the Online Store, if this description is 'boxed' (like Inquisitor Daemon Hunter, right), then they are also available from Games Workshop Hobby Centres and independent stockists.

The Forces of the Imperial Inquisition Collectors' Guide also includes some fantastic armies, conversions, Golden Demon winners and great dioramas from around the world.

IMPERIUS DOMINATUS

The Daemon has many forms. You must know them all. You must tell the Daemon from his disguise and root him out from the hidden places. Trust no one. Trust not even yourself. It is better to die in vain than to live in abomination. The zealous martyr is praised for his valour, the craven and the unready are justly abhorred.

Excerpted from the
First Book of Indoctrinations

"Look upon this hammer I hold before me, for it is far more than a weapon. It is a symbol of the Imperial justice that smites the diabolic enemies of the Imperium wherever they are found, just as I. Though it has banished even a mighty Greater Daemon to the hell from which it was spawned, it remains true and pure, just as I. Furthermore, it is a symbol of my order and my office, of the authority granted to me by the divine will of the Emperor. By that authority, I am commanding you and your entire regiment to obey me without question or hesitation. Advance, or it will not be daemonic blood that stains my hammer this day."

Inquisitor Lord Hylaeus Gradd,
addressing Colonel Mallon of the 223rd Cadramite Rifles.

IMPERIAL WORLD

INQUISITION STRONGHOLD

SPACE MARINE HOMEWORLD

CARDINAL WORLD

And henceforth be it known that the Imperium shall be divided into five fleet zones to be known as the Segmenta Majoris. These shall each have a Segment Fortress, from whence the orders of his glorious magnificence, the Emperor, shall be enacted. Imperialis Command Decoratum shall reside in each and with just duty be issued over the realms within their boundaries.

For the Segmentum Solar, this shall be Mars, World of the Adeptus Mechanicus and this Segment shall extend about Mars. Beneficent Emperor's Imperium. In the north of our most majestic domains shall be Segmentum Obscurus, being in freedom to the world of Cypra Mundi. To the South it shall make Segmentum Tempestus, with overlordship residing with the planetary estates of the hereditary Bakka.

To the West shall be Segmentum Pacificus, under the auspices of the Lords of Hydraphur. The most turbulent East, a region of much strife and dissension and of many lost worlds shall have its overlordship known as Ultima Segmentum, and its guarantor of safety shall be on the planetary Governor Kar Duniash. The Segment Fortress of the Imperial official of the Administratum shall be known as the Master of the Segmentum Solar. Lastly, the region of Segmentum Pacificus, and the Master of the Ultima Segmentum. In this the Emperor is most benevolent and thus shall the Emperor's charges be authority over such domains and reside with those who have the faith and temperament to dictate to the will of those others and take from them that which is the Emperor's due.

We will be watching you

The Inquisition is a secretive body founded in the earliest days of the Imperium. It stands ready to defend Humanity against the myriad dangers posed by the witch, the daemon and the alien. Such is the power wielded by an Inquisitor that they may call upon every branch of the armed forces of the Imperium and none may refuse their call. Even the Space Marines may be called upon to aid an Inquisitor should the threat be greater than he and any locally requisitioned forces are able to counter.

The Forces of the Imperial Inquisition Collectors' Guide is the most comprehensive resource ever compiled for anyone who has an interest in Forces of the Imperial Inquisition models. This full-colour, 72-page book is packed full of:

- Complete components lists (for those components currently available), including pictures and codes.
- Forces of the Imperial Inquisition; colour schemes of known Inquisitors and their forces.
- Imperial Inquisition-themed Golden Demon winning entries from around the world.
- The best Imperial Inquisition dioramas and conversions.
- Awesome Imperial Inquisition armies.

So, whether you're a veteran Witch Hunter or building your first army, this is one book you really can't do without!
